

Parent Coronavirus Questionnaire

During this time we are continually thinking about our pupils and parents and how best to support you. In history this situation has never occurred before and so we as yet do not know the effect it will have upon our children. We are keen to know more on how your children have coped with the lockdown either positively or negatively so we can begin to plan on how best to support children on their eventual return to school. We would be extremely grateful if you could answer the questions below so we can begin to build a picture.

Name: \_\_\_\_\_ Class: \_\_\_\_\_

Question	Yes (✓)	No (✓)	Comment
1. Can you think of any positive effects that the lockdown has had on your child's learning or behaviour?			
2. Can you think of any negative effects on your child from the lock down?			
3. Has your child shown any anxious behaviour e.g: panic attacks, separation anxiety, nightmares, OCD behaviours, worry etc			
4. Have you found any strategies useful to support your child's anxieties at home that may be of use to us to know in school?			
5. Has your child been happy and settled at home?			
6. Has your child displayed any new behaviours since lockdown?			
7. How does your child feel about their return to school?			
8. If possible could you tell us about any trauma within the family that could affect your child's behaviour since lockdown. E.g a bereavement due to covid 19 or other reason, family event, hearing stories from adults about the coronavirus that has upset them.			
9. If you are a key worker, do you have any additional worries about your child's wellbeing during this time?			
10. As a parent have you had concerns about your own mental health during the lockdown that you may need support with?
